 LABORATORY CONSUMABLE

## WIDELY APPLICABLE

It applies in drying articles in chemical analysis, physical determination, heat treatment and other temperature experiments in laboratories of industrial mining enterprise, medicine and health, environmental protection, biochemistry and scientific research etc.

### Characteristics:

- The heating plate adopts full ceramic heating plate, the product wear- resisting, corrosion resistance.
- Totally enclosed heating tray, the halogen-light, heating up fast, safe and reliable.
- The shell is made of high quality cold- rolled steel plate stamping, surface spraying process.
- Adopts intelligent PID control method, low temperature shock, the precision of temperature control, etc.

### Major Technical Parameters:

Model	TC-300	TC-400
Panel size(mm)	300*200	400*280
Voltage	110/220V	
Power(kW)	1.8	2.2
Maximum temperature(°C )	450	
Overall dimension(mm)	350*340*188	450*420*188
Surface material	Cold steel plate by stamping and welding	
Controller	PID control
